whatever I am done arguing with you, becuae this isnt getting anyone anywhere.

I just deleted many of his posts.

Thing is Tank, I have a huge section with several other subsections to moderate here. I probably spend, 40% of my time on many days dealing with CL issues. It isn't really fair. I currently have Syntrax shills to dig up, and I'm having to stop and get into this AGAIN with you guys?

I have an idea, why don't you hire Max? Put him on the payroll. Keep your friends close and your enemies closer. He won't bash you guys if he's working for you. ☹ (sarcasm and joke, please do not take out of context).

Sinners in the hands of an angry Mod.

To be perfectly honest, I have run several possible "Syntrax Shills" IP addresses. Yours was not one of them, but the ones I did run used proxies. What was interesting, is that everyone I ran (this came from Aetern's list or someone from MN who posted the list) shared the same proxy. The proxie list of users is quite long, some 50+ users, but every name I checked appeared on that said list. I don't think its enough to definatively nail the users in question yet, but it is suspicious.

Sinners in the hands of an angry Mod.

most proteins that claim to be "great pre-bed protein" list casein FIRST. so, we can figure they have a good amount of casein. I don't care if the blend is released or not, but I think you guys owe it to your customers to stop recommending it as a great pre-bed protein, when in fact, it is NOT

For those who don't want to read all 8 pages, here is my summary:

- Matrix has a lot of WPC and a little bit of Micellar Casein
- Matrix is NOT optimal for pre-bed
- Syntrax has many many skills

I think thats it!

i dont know much about this, other than their supposedly having lots of shills

explain?

hahahahaha, let me put it this way...there are a lot of HUGE syntrax fans who registered all on the same few days...they pop up in various threads always recommending Syntrax...they even recently made one a rep...Jkeith knows about it too...but they are ALL registered with proxies...

thats the short story...

*If you look at the fact that Syntrax has delicately handled their protein structure to avoid denaturing it as much as possible, that should tell you that these guys know what they are doing! Just by looking at the quality of each ingredient (eg "undenatured," "concentrate," "filtered," "micellar," "peptides") you should be able to come to the realization that these guys where out to make a far superior product. There is no way, after all that work, I would release to the public what the ratios were of each ingredient. Kudos Syntrax! If anyone disagrees, read the following interview on the truth about protein. It makes no mention of Matrix 5.0 or any other protein supplement, just raw truth about protein. In the end, you will find Matrix 5.0 nailed it! Interview=

Originally Posted by **FORGENUTRITION**

The word FORGE is defined as this: to form or shape out in any way, to produce, to frame, to invent. This is our company name, motto, way of life, and our vision!

The old world values of premier quality, value, utmost customer service, deep trust, and integrity is what our company has been forged out of. We found that in an ever changing world it is essential to isolate these few core values that always breed success. We are not about hype and we are not about glitz, glamour or pizzazz. We are about the timeless principles that bring true and lasting satisfaction.

At Forge we are dedicated to bringing the most unique and highest quality products in existence to you at the best value possible. It is our promise to not take advantage of you by charging you high prices for substandard products in fancy packages. We promise that our packaging will be artistic while being simple and to the point. Our contents will always be what is stated and will work better than any other product on the market. Our price will always be fair and reasonable. This is our promise to you the customer.

We at Forge truly put the customer first with our unparalleled customer service. We guarantee our products 100% and do our absolute best to make it a joy and a pleasure to do business with our company. We are committed to earning trust buy always being forthright, honest, and always acting out of genuine integrity and humility.

Both the company and the people of Forge are molded, framed and FORGED to the principles stated above each and every day. What better name for our company other than FORGE!

Your Company name is very appropriate. I think below is a better definition of FORGE, if this company is owned by DC:

Main Entry: 2forge

Function: verb

Inflected Form(s): forged; forg?ing
transitive verb

1 : to make or imitate falsely especially with intent to defraud :
COUNTERFEIT <forge a document> <forge a signature>

2 : to commit forgery
